Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: pg.3, line 6: delete "is"; pg. 5 refers to a line 5-5 in Figure 4, however, line 5-5 is not present in Figure 4.

Appropriate correction is required.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "26" has been used to designate both zipper slider and guide base, "48" has been used to designate both first end of tether and upper bracket. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3765

4. Claims 1-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The subject matter set forth in the preamble of claim 1 is not consistent with the limitations recited in the body of the claim. Specifically, in claim 1, line 1, applicant recites a hat tether apparatus for a hat having a cap portion whereas, in claim 1, line 3 as well as claim 2, line 2, applicant positively recites structure indicating that the combination of a hat tether apparatus and a hat having a cap portion is being recited. Thus it is not clear whether applicant intends to claim merely a hat tether apparatus or the hat tether apparatus in combination with a hat having a cap portion.

Allowable Subject Matter

5. Claims 1-32 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The claims are allowed because the prior art does not teach or render obvious a retractable hat tether apparatus with the particular feature of a guide base movably mounted to a cap portion.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ishiwata (U.S. 1,601,395) and Jackson (U.S. 5,675,841) teach relevant prior art.
